

MEGAN FIELD

UI DESIGNER/ DEVELOPER

PROFILE

After receiving an MSc in Environmental Science and having spent several years working in the industry at PriceWaterhouseCoopers as an environmental auditor, I decided to change careers after discovering my love for Web Design and Development. It's the perfect marriage of two things I enjoy doing – coding and being creative and I haven't found anything quite as rewarding as bringing my designs and ideas to life using code.

Almost four years later and after completing numerous projects, I am a fully-fledged Web Developer that works part-time as a UI Designer/ Developer. My latest work can viewed at <https://www.meganfieldonlinecv.co.za/>

EXPERIENCE

UI DESIGNER/DEVELOPER

Mountain Hops Software (Pty) Ltd./ Sep 2020 – Current

I am tasked on a daily basis with the UI design and development of predominantly web-based applications. The UI Development projects in which I'm involved entails receiving design mockups and developing them using HTML, CSS, JavaScript and Vue.js (front-end technologies) into a working markup. My UI design projects include drawing up interactive prototypes using Adobe XD and Photoshop and upon approval, coding the front-end portion of the application.

WEB DESIGNER AND DEVELOPER

Pixel On Point/ Aug 2018 – Current

I freelance under the company Pixel On Point and have been contracted by numerous companies to design and develop their websites as well as perform digital marketing and graphic design work.

WEB DEVELOPER

DDS Calorimeters/ Mar 2018 – Current

I am the dedicated web developer at DDS Calorimeters and am responsible for the redesign, maintenance, security, added functionality and splash pages of the DDS Calorimeter website and online shop website.
